

CLAIM AMENDMENTS

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

Claims 1 – 23 (Canceled)

24. (Original) An organic waste storage lagoon basin cover comprising:
a plurality of connected panels of interconnected multiple layers;
each panel having a top sacrificial layer to shield the cover from ultraviolet light degradation;
each panel having a foam layer comprised of a plurality of parallel, spaced apart foam strips; and
each panel having a layer of geotextile fabric.
25. (Original) The cover of Claim 24 wherein:
the various layers are interconnected by needle punching.
26. (Original) The cover of Claim 24 wherein:
the foam layer is located between the sacrificial layer and the geotextile fabric layer.
27. (Original) The cover of Claim 26 wherein:
the sacrificial layer is also formed of a geotextile fabric.
28. (Original) The cover of Claim 24 wherein:
the geotextile layer is located between the sacrificial layer and the foam layer.
29. (New) A multiple layered organic waste storage lagoon basin cover comprising:
a first layer located on top and comprised as a sacrificial layer for shielding from ultraviolet light degradation;

a second layer beneath the first layer and attached to it;
a third layer beneath the second layer and attached to it;
one of said second and third layers being a flotation foam layer;
the other of said second and third layers being a geotextile material.

30. (New) The lagoon cover of claim 29 wherein:

said first, second and third layers are divided into cover panels.

31. (New) The lagoon cover of claim 29 wherein:

said flotation foam layer is comprised of a plurality of parallel spaced apart foam strips.

32. (New) The lagoon cover of claim 31 wherein:

the foam layer is the second layer.

33. (New) The lagoon cover of claim 31 wherein:

the foam layer is the third layer.

34. (New) The lagoon cover of claim 31 wherein:

the first layer is formed of a geotextile material.

35. (New) A covered organic waste storage lagoon comprising:

an organic slurry basin containing a quantity of organic slurry;

a cover disposed over the basin and floating on top of the slurry;

said cover having a first layer located on top and comprised as a sacrificial layer for shielding from ultraviolet light degradation;

a second layer beneath the first layer and attached to it;

a third layer beneath the second layer and attached to it;

one of said second and third layers being a flotation foam layer;

the other of said second and third layers being a geotextile material.

36. (New) The organic waste storage lagoon of claim 35 including:

a plurality of tether lines connected to the edges of the cover for connecting the cover to anchors located on a perimeter surrounding the basin.

37. (New) The organic waste storage lagoon of claim 35 wherein:

said flotation foam layer is comprised of a plurality of parallel spaced apart foam strips.

38. (New) The organic waste storage lagoon of claim 35 including:

an earthen berm surrounding the basin;

a trench formed in the berm;

edges of said cover located in the trench and held therein by fill material in the trench.
